Material specifications:

- | | | | |
|-------------------------------------|--------------|-------------------------------------|------------------|
| <input type="checkbox"/> | Printed | <input checked="" type="checkbox"/> | Unprinted |
| <input checked="" type="checkbox"/> | Virgin fibre | <input type="checkbox"/> | Recycled content |

Condition of Use

Articles are suitable for contact with dry, moist and fatty foods up to 90°C at the moment of filling, after which the food cools down. Articles are not intended for use in microwave oven or conventional oven.

Storage:

Recommended storage conditions are 45-55% relative humidity and 19-23°C and not in direct sunshine. Articles do not have an exact expiry date but we recommend that articles to be used within 3 years from the date of production.

The compliance with the above mentioned legal acts and regulation has been confirmed by

- ☒ declarations issued by our suppliers
☐ tests and or calculations performed by an accredited lab with the following result, where:
Surface – volume ratio: ... kg/dm²

Overall Migration

Compliance with overall migration limits:

Simulant	Contact time	Temperature (°C)	Result (mg/dm ²)
10% Ethanol	2 h	70°C	< 10
95% Ethanol	2 h	60°C	< 10
Iso-octane	½ h	40°C	< 10

Surface area / volume: 0.4 dm² / 30 ml.

Dual use substances:

Based on the information from our board mill supplier the following dual use substances can be present: Calcium carbonate (E170)

Disclaimer:

This confirmation is not valid for unintended use of the product that can lead to changes of the composition or organoleptic properties of the product. The specific interaction between the food stuff and the product should be investigated by the user.

This declaration is valid as long as there are no changes in the composition of the above mentioned product and / or no revision of the relevant regulations have taken place, in which case it will be renewed.

We recommend our customers to verify the regulatory status periodically.
