### **Specific Migration / Heavy Metals**

Producer(s) of the above product(s) mentioned any substances for which the specific migration limit is established.

Vinyl chloride monomer is not used to produce this product.

The plastic layer does not contain materials subject to SML under (EU) No 10/2011.

The plastic layer does not contain dual use additives that are authorized food additives or flavorings.

The cumulative amount of heavy metals lead (Pb), mercury (Hg), cadmium (Cd), and Chromium VI (Cr) in the materials supplied does not exceed the limit of 100 ppm.

#### Intended use

Based on the tests the materials or articles intended to come into contact with food are intended for use under the following conditions:

Types of food: All types of food

Technical suitability for long term storage at room temperature and refrigerated foods is dependent upon the food type and the specified application of polyethylene coating.

This confirmation does not apply to the unintended use of the product(s) which can result in a change of composition or organoleptic properties of the product(s). The possible specific interactions between the food to be packed and the product(s) is for the user to be examined. Confirmation is based on suppliers declarations, to the best of our knowledge and migration analyses.

This declaration is valid as long as no changes in the composition of the above product(s) and / or the relevant laws have taken place, in which case it will be renewed.

We recommend our customers to verify the regulatory status periodically.

We declare that the information submitted is correct.
