

Declaration of Conformity

Cutlery

We hereby confirm that all stainless steel cutlery of the Group of Amefa companies and its Trademarks and Brands destined for food contact, are made by the following material grades:

- 1.4301 (18/10)
- 1.4016 (18/0)
- 1.4021 (420J1 13/0)
- 1.4021 (420N1 13/0)

These material grades have been tested following a risk based approach to comply with

- (EC)1907/2006 REACH ANNEX 17/(EU)No 2015/628
- European Regulation (EC) No 1935/2004
- Council of Europe Resolution CM/Res(2013)
- German Food, Articles of Daily Use and Feed Code of September 1, 2005(LFGB)
- Dutch - Commodity Act on Packaging and Consumer Products
- French Décret 2007-766, DGCCRF Information Notice 2004/64
- Finnish Decision of Ministry of Trade and Industry 268/1992
- Norwegian Regulation for 21 December 1993 No 1381 Chapter Via and Annex III
- Swiss Regulation of the EDI relating to materials and articles intended to come into contact with food (Consumer Goods Regulation)

All materials are frequently tested according to these regulations and all products made by these materials are internally verified in their composition.

We also declare that all products of the Amefa Group and its Trademarks and Brands destined for food contact, comply with the Commission Regulation (EC) No. 2023/2006 of 22nd December on Good Manufacturing Practice for materials and articles intended to come into contact with food.

All Products of the Amefa Group and its Trademarks are not toys and are not suitable for children under 3 years of age. Please let children aged over 3 use our Children Products only under adult supervision.

All details are based on our testing and research as well as the actual legislation and state of the art at the date of issue. This declaration expires with a change of legislation or latest after 12 months.

5.10.2020

Dr. Michel Mamrot

Group Quality Manager
