MARZIPAN

LOUIS D'ANVERS

BY MASSEPAIN SLEEUBUS
SINCE 1923

SWEET MOMENTS TO SHARE

WONDERFUL, ARTISANAL MARZIPAN

Dear lover of **the good things in life,**

Are you familiar with our brand? If so, then you will know all about our assortment of fresh marzipan in consumer packaging. These are usually sold under a generic label by scout groups and other associations in Antwerp. Have you not heard about us yet? Then an introduction is in order.

After all, Massepain Sleeubus is not just a producer of marzipan. What started as a confectionery in 1923 on the Isabella lei in Antwerp has evolved into the producer of marzipan, fondant and ground almond par excellence. Since the very beginning we have been focused on one thing: making our product according to our tried and tested recipes. Our employees are dedicated professionals but above all, they love what they do. They go above and beyond. You can taste the result of that dedication in all our products. It really is the best of the past with today's relentless drive. That's what makes our products so irresistible.

After almost a hundred years, we are launching our own consumer label: "Louis d'Anvers". Louis, in honour of great-grandfather Louis Sleeubus, founder of Massepain Sleeubus and creator of all our

delicacies, and "d'Anvers" (from Antwerp), because we are proud of our roots. But especially since we still produce our delicacy from Antwerp today at the same location as we always have, in 't Stad (the heart of the city), in the wonderful shadow of the Green quarter and brewery De Koninck.

We are eager to find out if our sweet gold will tempt you. And we look forward to creating an authentic success story together. This brochure contains an overview of our standard products and our seasonal assortment.

Haven't found what you're looking for yet, or do you have an idea or concept that we can help you with? Don't hesitate to contact us. We would love to discuss your wishes over a coffee with a delicious piece of fresh marzipan.

Tasty greetings.

MARZIPAN "CLASSIC"
