ACCESSORIES

In our teamwear we provide a men, women's and kids line. It is for clothing lines perfectly possible to obtain a personalized and uniform design. To achieve an optimum performance, we always pursue a perfect and ergonomic fit. Compared to menswear, the women's shirts are slightly shorter and centered, adjusted to the anatomy of the woman's body.

In onze teamwear voorzien wij zowel een heren-, dames- als een kinderlijn.

Het is perfect mogelijk om kledinglijnen in een gepersonaliseerd en uniform design te verkrijgen. Om optimale prestaties te kunnen leveren, wordt er steeds een perfecte fit en ergonomie nagestreefd. In vergelijking met de heren zijn de damesshirts iets korter en gecentreerd, naar anatomie van het vrouwelijk lichaam.

Dans notre teamwear nous vous proposons une collection hommes, femmes et enfants.

Il est aussi possible pour ces collections d'obtenir un dessin personnalisé et uniforme. Pour obtenir une performance optimale, nous aspirons toujours un ajustement parfait et ergonomique. Comparé avec les hommes, les maillots de femmes sont un peu plus courts et cintrés.

PHOTO BY GETTY IMAGES

PROFESSIONAL TESTERS

Throughout the years many top teams and great champions competed in cycling clothing designed by Vermarc Sport.

Due to these partnerships, Vermarc gains access to the ultimate proving ground for clothing development and technology. In combination with lab testing of garments and fabrics for aerodynamics, durability, fit, feel and function, this enables us to produce world-leading garments for the performance-demanding cyclist, and custom solutions for clubs, teams and events worldwide.

PROFESSIONELE TESTPILOTEN

Doorheen vele jaren van intensieve samenwerking rijden topteams en kampioenen in wielerkledij ontworpen door Vermarc Sport.

Dankzij deze samenwerking kan Vermarc zijn technologie en kledij ontwikkelen die de ultieme testen op het terrein doorstaan.

In combinatie met labotesten van de kledij en de stoffen worden bovendien de aerodynamica, de pasvorm, de duurzaamheid en de functionaliteit continu verbeterd.

Hierdoor kan Vermarc high performance kledij produceren voor wielerliefhebbers die een optimaal comfort nastreven en gepersonaliseerde oplossingen aanbieden voor clubs, teams en evenementen wereldwijd.

TESTEURS PROFESSIONNELS

Depuis de longues années, des nombreuses équipes renommées ont roulé avec des équipements cyclistes créés par Vermarc Sport.

Suite à cette collaboration, Vermarc a pu développer sa technologie et ses équipements grâce à des tests extrêmes sur le terrain. En plus de cela, des tests en laboratoire des équipements et des matériaux ont été effectués pour améliorer l'aérodynamisme, la durée de vie, la forme, le confort et l'utilisation. Ce qui nous permet de produire des équipements dont la qualité est au sommet au niveau mondial. Et ceci pour les cyclistes qui recherchent la performance mais aussi pour les clubs, équipes et événements qui veulent des solutions adaptées dans le monde entier.

WHETHER YOU ARE A RECREATIONAL, AN ENTHUSIASTIC OR A COMPETITIVE CYCLIST: WE HAVE A LABEL THAT FITS YOUR NEEDS

CHOOSE YOUR STYLE

Vermarc differentiates mainly 3 different lines: the comfort line ES.L, the premium line SP.L and the elite line PR.R. The elite PR.R line takes more and more innovative, more ergonomic and lighter garments to meet the highest requirements of the professional riders.

The premium SP.L line benefits of the immense professional testing and research of Vermarc's premium collection and gives a unique proposition on performance and comfort.

The comfort ES.L line offers a unique Vermarc quality and comfort to meet the technical questions of cyclists of all levels and for the most diverse type of riders.

It is perfectly possible to combine the different qualities in one personalised and uniform design.

This allows each team and each passionate cyclist a custom made offer adapted to different needs and budget.

Vermarc onderscheidt in hoofdzaak 3 verschillende lijnen: de comfort lijn ES.L, de premium lijn SP.L en de elite lijn PR.R.

De elite PR.R lijn brengt steeds meer innoverende, meer ergonomische en lichtere kledij die telkens opnieuw tegemoet komt aan de hoogste vereisten van de professionele renners.

De premium SP.L lijn profiteert mee van de immense professionele testen en research van Vermarc's premium collectie en geeft een unieke propositie op prestatie en comfort.

De comfort lijn ES.L biedt een unieke Vermarc kwaliteit en comfort en komt tegemoet aan de technische vragen van wielrenners op alle niveaus en voor de meest uiteenlopende type renners.

Het is perfect mogelijk om de verschillende lijnen in een gepersonaliseerde en uniform design te verkrijgen of de kwaliteiten onderling te combineren. Op die manier kan voor elk team en elke gepassioneerde fietser het aanbod op maat, wens en budget aangepast worden.

Vermarc différencie principalement 3 lignes différentes: la ligne confort ES.L, la ligne premium SP.L et la ligne d'élite PR.R.

La ligne élite PR.R propose un équipement plus innovateur, plus ergonomique et plus léger pour répondre aux plus hautes exigences des coureurs professionnels.

La ligne premium SP.L profite des importants tests et recherches sur la collection élite de Vermarc et donne une proposition unique sur la performance et le confort.

La ligne confort ES.L offre la qualité et le confort uniques de Vermarc pour répondre aux plus grands nombres de cyclistes de tous les niveaux.

Il est parfaitement possible de personnaliser votre tenue d'équipe en combinant les différentes qualités. Cela permet pour chaque équipe et chaque cycliste passionné, une offre sur mesure, désir et budget.

A close-up photograph of a cyclist's torso and arms. The cyclist is wearing a dark grey or black cycling jersey with three bright yellow horizontal stripes on the chest. On the left chest, there is a small white rectangular patch with the letters "PR.R TEAM MEN". On the right chest, there is a circular logo with a stylized "W" and the word "VETMARC" below it. The waistband of the cyclist's shorts is also light blue with yellow stripes. The background is blurred green foliage.

PRORACING.RESEARCH

SPORT.LINE

A close-up photograph of a cyclist's torso and arms. The cyclist is wearing a dark grey or black cycling jersey with three orange vertical stripes on the chest. On the left chest, there is a small white rectangular patch with the letters "SPL TEAM WOMEN". On the right chest, there is a circular logo with a stylized "W" and the word "VETMARC" below it. The waistband of the cyclist's shorts is light blue with orange stripes. The background is blurred green foliage.

ESSENTIAL.LINE

PRORACING.RESEARCH LINE is the elite apparel collection of Vermarc. PR.R is the research applied for the development of cycling outfits for professionals.

These premium cycling garments consistently set the bar for technical advancement, innovation and performance. PR.R light weighted fabrics contour perfectly to the body, forming a 'second skin' that makes every movement natural and comfortable. The fabrics, features and level of detail in PR.R garments endow them with racing fit and performance characteristics difficult to overcome.

INNOVATIVE TECHNOLOGY. PROFESSIONAL TESTERS.

PRORACING.RESEARCH LINE is de elite collectie van Vermarc. PR.R is de toegepaste research voor de ontwikkeling van wielerkledij voor professionele wielrenners.

Deze premium wielerkledij wordt gekenmerkt door technologische vooruitgang, innovatie en performance. De PR.R vederlichte materialen sluiten perfect aan rond het lichaam waardoor het als een "tweede huid" wordt en waardoor elke beweging natuurlijk en comfortabel aanvoelt. De materialen en de details van de PR.R kledij laten de profrenners toe prestaties neer te zetten die moeilijk te overtreffen zijn.

INNOVERENDE TECHNOLOGIE. PROFESSIONELE TESTERS.

PRORACING.RESEARCH LINE est le meilleur équipement de la collection de Vermarc. PR.R est la recherche appliquée au développement des vêtements cyclistes pour professionnels.

Ces équipements cyclistes exceptionnels sont reconnus pour leurs technologiques avancées, leurs innovations et leurs performances. Les fibres utilisées pour la fabrication de la ligne PR.R sont très légères et s'adaptent parfaitement au corps, formant une "seconde peau" qui fait que chaque mouvement est naturel et confortable. La qualité de fabrication et le souci du détail des équipements PR.R permettent de courir dans des conditions incomparables.

TECHNOLOGIE INNOVANTE. TESTEURS PROFESSIONNELS.

SP.L

SPORT.LINE is designed to give a slight compression effect to provide a tight fit that moves with your body while performing.

SP.L high quality fabrics and patterns are cut ergonomically to perfectly clone the shape and movements of a cyclist in the riding position. Each product detail is carefully executed enhancing the performance and riding experience. The idea is to forget about what you're wearing and focus on the ride. The SP.L collection benefits from the incredible amount of professional research and testing that goes into Vermarc's premium collections.

PERFORMANCE. COMFORT.

De SPORT.LINE kledij heeft een aansluitende pasvorm die de lichaamscontouren volgt tijdens de inspanning.

De kwalitatief hoogstaande materialen en ontwerpen van SP.L zijn ergonomisch en volgen perfect de bewegingen van de renner tijdens zijn rit. Elk productdetail is zorgvuldig afgewerkt om de prestatie en de rijervaring te verbeteren. Het laat je toe te vergeten wat je aanhebt om je te focussen op je rit. De SP.L collectie profiteert van de immense professionele research en de testen van Vermarc's premium collecties.

PERFORMANCE. COMFORT.

SPORT.LINE est dessiné de telle façon qu'il procure un léger effet de compression pour un équipement adapté au cycliste et qu'il bouge avec le corps.

La haute qualité de fabrication des équipements SP.L permet une coupe ergonomique qui s'adapte parfaitement aux mouvements réalisés en position cycliste. Chaque produit est fabriqué de la meilleure manière possible, jusqu'à dans les moindres détails améliorant la performance et l'expérience routière. Le but est d'oublier ce que vous portez et de vous concentrer sur votre route. La collection SP.L a pu bénéficier de l'incroyable quantité de recherches et tests professionnels du collections du top de Vermarc.

PERFORMANCE. CONFORT.

ES.L

ESSENTIAL.LINE garments showcase comfort and value unique to Vermarc.

ES.L fabrics and fit are optimised to meet the technical demands of cyclists of all ability levels, accommodating the widest variety of riders. ES.L garments provide exceptional value by pairing quality materials with essential features and comfort. With a variety of garments and accessories, ES.L offers essential basics and flexible combination possibilities to satisfy every preference.

WEARABILITY FOR ALL.

ESSENTIAL.LINE kledij biedt u de unieke Vermarc kwaliteit en comfort.

De ES.L materialen en pasvorm zijn geoptimaliseerd om tegemoet te komen aan de technische vragen van wielrenners op alle niveaus, voor de meest uiteenlopende types renners. ES.L kledij biedt een uitzonderlijke meerwaarde door kwaliteitsmaterialen met functionele kenmerken en comfort te combineren. Met een uitgebreid gamma van kledij en accessoires biedt ES.L de essentiële basics en flexibele combinatiemogelijkheden om te voldoen aan ieders voorkeur.

DRAAGBAARHEID VOOR IEDEREEN.

ESSENTIAL.LINE vous permet de bénéficier de la qualité et du confort unique de Vermarc.

Les matériaux et la fabrication de ES.L sont optimisés afin de permettre au plus grand nombre de cyclistes de tous les niveaux de pratiquer leur passion. Les équipements ES.L sont d'une qualité exceptionnelle et allient d'excellents matériaux pour améliorer des éléments essentiels dont le confort. Grâce à une grande diversité d'équipements et accessoires, ES.L offre une excellente base, et des possibilités de combinaisons flexibles afin de satisfaire le plus grand nombre.

CLEAN CLOTHING

CORPORATE SOCIAL RESPONSIBILITY

"We will develop the world's best cycling wear!"

The expression of founder Frans Verbeeck still counts today. But there is more to the word "best" than it seems. Not only the quality of the clothing is important but also the impact on the society matters. Vermarc Sport is a Belgian company that takes its responsibility to produce cycling clothing in an ethical responsible environment with a minimal impact on the planet.

Corporate Social Responsibility (CSR) consists out of three principles: Profit, People and Planet. These three elements are strongly connected. Below is a brief explanation of how Vermarc Sport applies the CSR-policy in their organization.

PRODUCTION: EUROPE

Vermarc Sport has a 29-year-old collaboration with a supplier in Italy. This Italian production house started a new production department in Bosnia-Herzegovina last year. Today 80 % of the cycling clothing is produced in Italy, 10 % in Bosnia-Herzegovina and 10 % in a Belgian company. Because of the long-term relation with direct suppliers, effective and sustainable improvements of the labor conditions are assured. By keeping the production in Europe, and not in Asia, the transport pollution is reduced.

LIVING WAGE

Vermarc Sport takes its responsibility to produce the cycling garment in fair labor conditions.

AVERAGE LEAD TIME: 8 WEEKS

Unlike other companies that put more and more pressure on their suppliers to deliver the clothing very fast, Vermarc Sport respects an average lead time of 8 weeks. In this way the workload decreases and the quality is guaranteed.

CODE OF CONDUCT

The Italian production house closely follows a code of conduct based on the fundamental ILO-values (ILO = International Labor Organization). The code of conduct is placed in different areas in the factory. Below is a brief summary of this code of conduct:

- Voluntary employment;
- No discrimination based on gender or religion;
- Freedom of rights. CAO (Collective Labor Agreement) is respected;
- Punctual salary payments. Right to legal vacation;
- Legal minimum wage is respected;
- Work time and working overtime is respected;
- Work is delivered on an average basis to ensure job security;
- Safe working environment, sanitary facilities;
- Minimal impact on the climate.

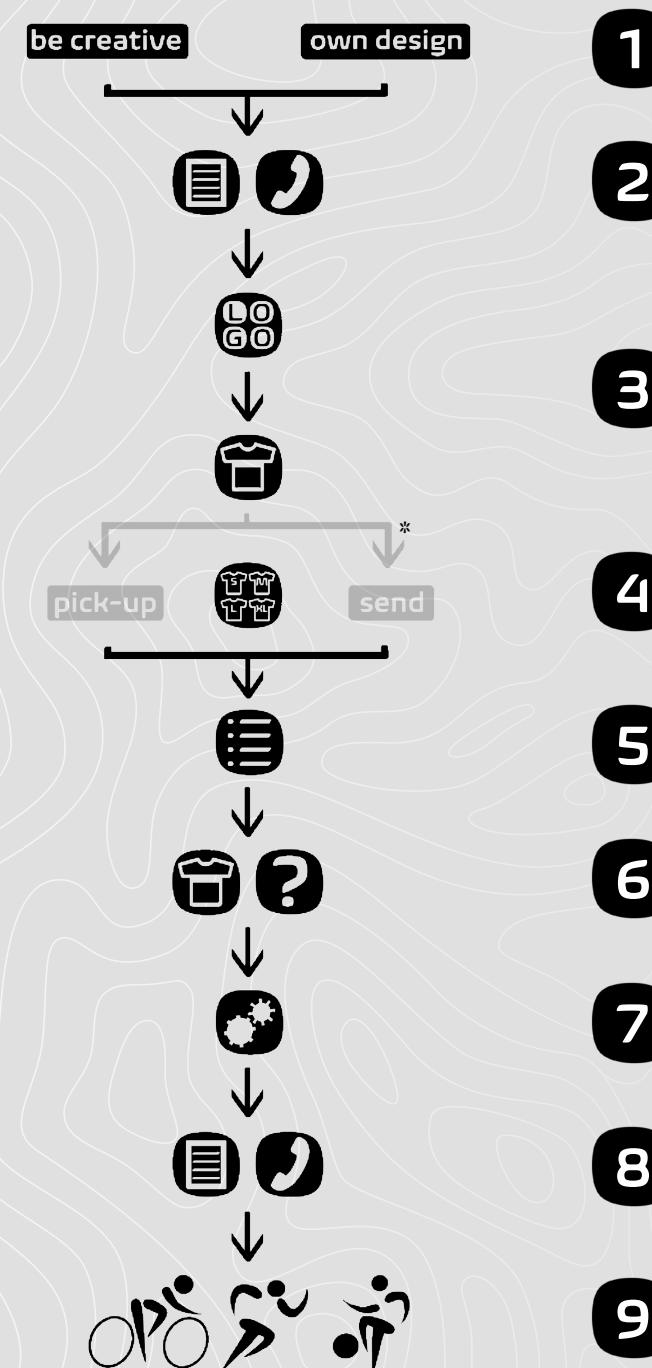

Trade union freedom & long-term contracts

The Italian factory counts different independent trade unions (CGIL and CISL). 75 % of the employers has a permanent contract. Because of the trade unions and the long-term contracts there is room for social dialogue. The employers have their say in the daily policy of the business.

Do not hesitate to contact Vermarc Sport if you wish to attain more information of the efforts Vermarc Sport delivers concerning corporate social responsibility.

ACTION PLAN

Personalization of sports clothing is not something that happens overnight. A brief explanation of this process:

- ① Price quotation by the Be Creative tool or by email for a completely unique design.
- ② We will contact you and give you all the necessary information.
- ③ Once we have your guidelines and logos, our designers can start. The average design time is 3 weeks.
- ④ In the meantime you can fit the clothing. This can be requested by requesting a fitting set. The fitting set will be sent or can be collected*.
- ⑤ Your representative collects all the sizes and delivers us an overview.
- ⑥ We set up an order and email you the design. After approval of both, the order and the design, production starts.
- ⑦ The lead time is 8 up to 10 weeks.
- ⑧ We will contact you again when your order is finished.
- ⑨ You are ready to sport now in a unique outfit!

Het personaliseren van sportkledij is niet iets dat gebeurt van vandaag op morgen. Even een korte toelichting van dit proces:

- ① Offerteaanvraag via de Be Creative tool of voor een volledig eigen ontwerp via mail.
- ② Wij nemen contact op en leveren al de nodige informatie aan.
- ③ Eens wij de logo's en de richtlijnen van jou hebben, kunnen onze ontwerpers van start gaan. De gemiddelde ontwerptijd bedraagt een drietal werkweken.
- ④ In de tussentijd kan je de gewenste kledij passen. Dit kan door een passet aan te vragen. De passet wordt opgestuurd of kan worden opgehaald*.
- ⑤ De clubverantwoordelijke verzamelt de maten en bezorgt ons een overzicht.
- ⑥ Wij stellen een bestelorder op en sturen het ontwerp door. Na de goedkeuring van beide wordt er met de productie gestart.
- ⑦ De productietijd bedraagt een acht- à tiental werkweken.
- ⑧ Wij geven een seintje dat de bestelling kan worden opgehaald of sturen deze op.
- ⑨ Klaar om te sporten in een exclusieve outfit!

La personnalisation d'équipements de sport n'est pas quelque chose qui se fait du jour au lendemain. Petite explication de ce processus:

- ① Demande d'offre de prix via l'outil Be Creative ou par mail pour une tenue 100% personnalisée.
- ② Nous prenons contact avec vous et vous donnons les informations nécessaires.
- ③ Dès que nous avons reçu vos logos et vos directives, nos graphistes se mettent au travail. Il faut environ 3 semaines ouvrables pour créer une maquette.
- ④ Pendant ce laps de temps, vous pouvez essayer les différentes tailles des équipements souhaités en nous demandant un kit d'essayage. Le kit d'essayage peut être envoyé ou retiré chez nous*.
- ⑤ Le responsable du club récolte toutes les tailles et nous les envoie.
- ⑥ Nous rédigeons un bon de commande et vous envoyons la maquette. Après votre approbation pour ces 2 choses, nous pouvons lancer la production.
- ⑦ La durée de production est de 8 à 10 semaines ouvrables.
- ⑧ Nous vous tenons au courant du moment auquel la commande peut être retirée ou bien vous l'envoyons.
- ⑨ Vous êtes prêts à faire du sport dans une tenue exclusive!

*Only for residents of the Benelux / alleen voor inwoners van de Benelux / seulement pour les résidents du Benelux

FUNCTIONAL FEATURES & PADS

Summer: 16 C° and higher

Mid-season: 8 C° up to 16 C°

Winter: 8 C° down to freezing

- ② **2 Back pockets:** there are 2 storage compartments.
- ③ **3 Back pockets:** there are 3 storage compartments.
- ④ **3+ Back pockets:** there is the possibility for more than 3 storage compartments.
- ⑤ **Additional opening:** an opening for multimedia appliance is possible.
- ⑥ **Aerodynamic / racing fit:** cycling garments designed with an aerodynamic slim fit forming a second skin that makes every movement natural and comfortable.
- ⑦ **Antibacterial:** the use of fabrics with carbon fibers shields the body from absorbing static energy and UV rays. The structure of the fabric accelerates evaporation of moisture keeping the skin dry and cool. It is antibacterial and inhibits the development of odorcausing bacteria.
- ⑧ **Breathable:** advanced fibers and fabric construction blocking cold air or moisture to come in, but keeping high breathability.
- ⑨ **Compression:** the use of high performance fabrics with gradient compression levels, provides the right level of surface pressure on specific muscle groups. This technology provides a better comfort, enhancing the blood circulation and getting more vital oxygen and power during activity and helping to reduce lactic acid build up.
- ⑩ **Extreme weather:** garments made of high technological fibers with advanced treatments for active protection against extreme rain, wind and cold conditions.
- ⑪ **Flatlock stitching:** the use of flat stitches avoids friction and irritation to the skin.
- ⑫ **Full length zipper:** the jersey can easily be put on and off.
- ⑬ **Heat retention:** fabrics with polar fleece on the inside for extra warm feeling and with a unique combination of wind- and waterproof membrane ideal for heat retention.
- ⑭ **High collar:** extra warmth for really cold weather.
- ⑮ **High-quality elastic fibers:** to retain the shape of the product.
- ⑯ **Jacquard fabric:** the use of jacquard woven fabric includes the benefit of stretch, increased shape-retention and durability.
- ⑰ **Light weight:** super light weight fabrics contour perfectly

to the body and guarantee a perfect ergonomic fit and racing performance.

Long zipper: the jersey can easily be put on and off.

Low collar: for an extra aerodynamic toucch.

Net: prevents the heat from bottling up and keeps the jersey even more breathable.

Opening in the front: makes it for men more easy to pee in speedwear.

Panty zip: the bottom of the leg has an easy-use zipper.

Regular / comfort fit: cycling garments designed to offer maximum comfort accomodating the widest variety of cyclists.

Silicone border: the silicone borders are used in the hem to prevent the shorts from riding up.

Silicone strip: silicone strips are used in the hem to prevent the jersey from riding up.

Slim / tight fit: cycling garments designed with a slight compression effect to provide a tight fit that moves with your body while performing.

Visibility: garments have reflective logos, strips or are available in a fluorescent colour to increase safety of the cyclist.

Warm: fabrics with a unique construction which evaporates very quickly moisture from perspiration ensuring a dry and warm feeling.

Water repellent: garments offering a light protection against light rain conditions.

Waterproof: innovative microfibre fabric that ensures high performance and is complete waterproof even under extreme conditions of use.

Windproof: 2 layer fabric with hydrophilic membrane that ensures resistance to wind and light rain while maintaining breathability.

Windtunnel tested: garments are tested in cycling specific Wind Tunnels simulating various fluids across the structure of the fabric and the shape of the garment. This knowledge and innovation is used to optimize aerodynamic performance of the garments and to allow riders to be faster than ever.

LD LONG DISTANCE MEN | WOMEN

2 pieces shammies with high elasticity and recovery.
Upper layer with Aloe vera microfiber material.
Shaped wings to follow the anatomy of the rider.
Special high density foams placed in key points to provide maximum comfort.
Open cell polyurethane insert located in the bottom of the pad to give maximum protection.
The insert has a 80 kg/m³ density.
Excellent transpiration capabilities and high moisture management.
Suitable for the longer distances.
Road and off-road usage.
Available both for man and woman.

E ELITE MEN

2 pieces high frequency shammies.
Superior layer in polyester microfiber for softness and breathability.
Smaller shaped medium density 6mm bottom insert for improved protection.
Different thicknesses depending on the contact points on the saddle.
High elasticity.
Suitable for the medium distances.
Road and off-road usage.

LD LONG DISTANCE KIDS

2 pieces shammies with high elasticity and recovery.
Upper layer with Aloe vera microfiber material.
Shaped wings to follow the anatomy of the rider.
Special high density foams placed in key points to provide maximum comfort.
Open cell polyurethane insert located in the bottom of the pad to give maximum extra-protection.
The insert has a 80 kg/m³ density.
Excellent transpiration capabilities and high moisture management.
Suitable for the longer distances.
Road and off-road usage.

3D MEN | PRISM WOMEN

Single piece high frequency shammies.
Polyester microfiber for fast drying.
Monodensity construction and different thicknesses depending on the areas.
The single layer gives maximum protection with reduced bulk.
High elasticity and freedom of movement.
Available both for man and woman.

T TRI PAD MEN | WOMEN

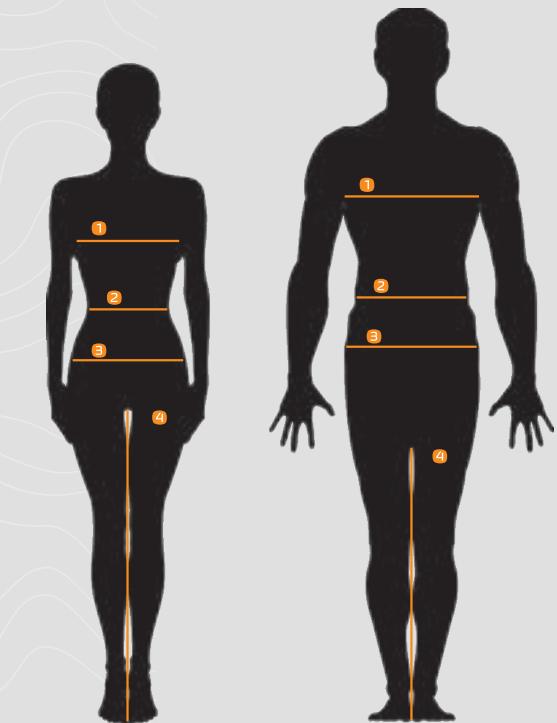

Single piece high frequency shammies.
Polyester microfiber for fast drying.
Specifically designed for Triathlon.
The small bulk provides protection without added weight in water.
High elasticity and freedom of movement.
Available for man and woman.

SIZECHART & WASHING INSTRUCTIONS

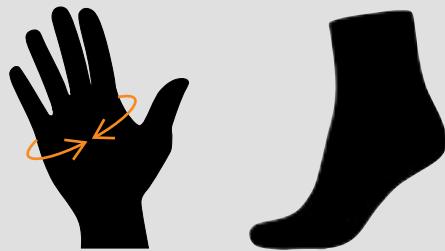

- 1 BUST / CHEST**
Measure around the fullest part, across the bust points, keeping the tape horizontal.
- 2 WAIST**
Measure around the narrowest part (typically the small of your back and where your body bends side to side), keeping the tape horizontal.
- 3 HIP**
Measure around the fullest part of your hips, keeping the tape horizontal.
- 4 BODY INSEAM**
Measure from your crotch to the bottom of your leg.

Washing instructions cycling clothes

New cycling clothing always looks nice: fresh colours, a good fit. Therefore it is important to maintain the quality of the clothing to enjoy it for as long as possible.

Our advice on the maintenance of your cycling clothing:

- ⌚ It is best to wash the clothes directly after your work-out. The perspiration moisture can affect the clothing, causing the fabric to become damaged, thinner and less elastic. Also dried dirt makes it difficult to get your outfit clean. If immediate washing is not possible, put the clothing to soak.
- ⌚ Preferably use liquid and no chlorine-containing detergents.
- ⌚ Do not use fabric softener, this will damage the fabric and breaks down the water repellent and elastic features.
- ⌚ Wash the clothes inside-out, make sure all pockets are empty.
- ⌚ We advise you to use hand wash when you wash your outfit for the first time. Use cold water with a liquid detergent to prevent any colour blending. Afterwards the clothes can be washed in lukewarm water.
- ⌚ If laundry is washed in the washing machine, always follow the laundry instructions mentioned inside the clothes. Never exceed the specified maximum temperature of 30 degrees. At higher temperatures, the elasticity and the zippers get damaged.
- ⌚ Always wash the clothes separately in the washing machine. Close the zippers and velcro (wash preferably without velcro) to prevent damage.
- ⌚ Hang the clothes wet and allow to dry in a darker place to avoid discolouration.
- ⌚ Never dry the clothes in the dryer. The elastic materials are not resistant to this and the clothing will soon lose its shape.

INSPIRED BY A GLORIOUS CYCLING HERITAGE

It all began in 1977 with a bold vision of Frans Verbeeck, ex-professional Belgian cyclist and founder of Vermarc Sport: "We will develop the world's best cycling teamwear. With our experience from the world of cycling, using the most advanced fabrics and designed to meet the highest requirements of professional and passionate cyclists."

This pioneering spirit has resulted in a philosophy which challenges our Vermarc Sport team every day. Moving the boundaries of possibility. More innovative, more ergonomic and more lightweight, this is our motto.

Today Vermarc Sport brand stands for extraordinary and personalized design, outstanding quality and maximum performance. Its unique cut, comfort and use of high-quality stretch Italian fabrics offer the greatest possible freedom of movement.

Every part, every detail of the Vermarc Sport collection reflects its passion for cycling, its heritage and the intensive long term cooperation with the best professional teams in the world. Their feedback resulted in a continuously improvement of our collections.

Vermarc Sport collections meet the highest quality demands in terms of durability and fit. This experience and knowledge is provided for both men and women's line and can be customized to the needs and requirements of each team of passionate cyclists, flexible and for an affordable price.

Design and craftsmanship true made in Europe, since 1977, the Vermarc Sport brand as guarantee for quality!

Technology. Design. Heritage.

In 1977 deed Frans Verbeeck een boude uitspraak: "We gaan 's werelds beste wielerkleding ontwikkelen!".

De visie en ervaring van de Belgische ex-profrenner bracht hem er toe om enkel de meest geavanceerde stoffen te gebruiken en zo tegemoet te komen aan de hoogste vereisten van zowel profrenners als gepassioneererde wielerfanaten.

Deze pioniersgeest heeft geleid tot een filosofie die ons Vermarc Sport team elke keer opnieuw aan de dag legt en grensverleggend werkt. Ons motto is steeds meer innoverende, meer ergonomische en lichtere kledij brengen.

Vandaag staat het merk Vermarc Sport voor uitzonderlijke en gepersonaliseerde designs, uitstekende kwaliteit en een bevorderend prestatievermogen. Zijn unieke snit, comfort en het gebruik van hoogwaardige Italiaanse stoffen geven een optimale bewegingsvrijheid.

Elk onderdeel, elk detail van de Vermarc Sport collectie reflecteert de passie voor het wielrennen, het erfgoed en de intensieve samenwerking op lange termijn met de beste professionele teams ter wereld. Hun voortdurende feedback resulteert in een constante verbetering van onze collecties.

In de collectie van Vermarc Sport wordt de duurzaamheid en de pasvorm van wielroutfits hoog in het vaandel gedragen, zowel in onze dames-als herencollectie. Elk team van gepassioneerde fietsers bieden we topkledij tegen een betaalbare prijs.

Door zijn design en vakmanschap gemaakt in Europa staat Vermarc Sport als merk garant voor kwaliteit!

Technologie. Design. Erfgoed.

Tout a commencé en 1977 avec l'idée de Frans Verbeeck, ex-coureur professionnel Belge et fondateur de Vermarc Sport: "Nous allons produire les meilleurs vêtements au monde pour le cyclisme. Nous y arriverons par notre expérience dans le monde du cyclisme, par l'utilisation de tissus les plus avancés et grâce à des vêtements qui sont développés pour répondre aux besoins des coureurs professionnels ainsi qu'à ceux des amateurs.

Cet esprit pionnier a conduit à une philosophie qui incite notre équipe Vermarc Sport à chaque jour repousser ses limites. Notre devise est d'apporter des vêtements toujours plus innovants, plus ergonomiques et plus légers.

Aujourd'hui Vermarc Sport est reconnu pour ses designs extraordinaire, pour son excellente qualité et pour son rendement maximal. Sa coupe unique, son confort et l'utilisation de tissus Italiens de très haute qualité donnent une liberté de mouvement optimalisée.

Chaque article, chaque détail de la collection Vermarc reflète la passion pour le cyclisme, l'héritage et une coopération à long terme avec les meilleures équipes professionnelles du monde. Grâce à leur expérience nous pouvons constamment continuer à améliorer nos collections.

La collection Vermarc Sport répond aux besoins de durabilité et de personnalisation des vêtements. Ces qualités sont conçues pour les hommes ainsi que pour les femmes pour que tous les cyclistes puissent profiter de nos vêtements et ainsi d'une collection flexible à pour un prix abordable.

Grâce à son design, sa compétence sa fabrication en Europe, la marque Vermarc Sport est une garantie de qualité!

Technologie. Design. Héritage.
